Pedro Arenas — Senior Frontend / Full-Stack Engineer (Remote EU)

I build fast, scalable, accessible web apps that move business metrics.

- -45% page-load time on enterprise apps
- -30% AWS infra costs via smarter architectures
- 500k+ monthly visitors handled without downtime
- 95% client retention across 20+ delivered projects
- -90% production errors with dedicated test env & CI/CD

Selected Wins

TostaRica (2025)	Nuxt 3 marketing site that scaled to 500k+ monthly visitors; zero downtime during campaigns.
Udima (2024–25)	Shipped LMS features and UX changes increasing student engagement by ~35%.
Buscorepuestos (2022–24)	Cut deploy time from 1h → 10m and improved search efficiency by ~40% with caching & query tuning.

Tech Snapshot

React 18, Next.js, Vue 3, Nuxt 3, TypeScript • Node.js, Django • AWS (Lambda, S3, CloudFront, DynamoDB) • PostgreSQL, MongoDB • GitHub Actions, Docker

How I Can Help

Frontend leadership • Web system design • Performance & cost optimization • DX & CI/CD • Mentoring
